Re. Recommendation Letter for Sean Murphy

To Whom it May Concern:

Monday, January 06, 2014

I am writing in strong recommendation of Sean Murphy for a position with your organization. Sean has been an employee under my supervision at the City of Boulder Open Space and Mountain Parks (OSMP) for the past year and a half a Trail Crew Member. I have had the opportunity to observe and supervise Sean's work in the field while he was implementing and leading trail construction and maintenance projects.

The quality of Sean's work has been excellent. He was tasked with constructing and maintaining trails for recreational hiking, mountain biking, and equestrian use. Consistently, his attention to detail and high-quality work are much appreciated. He has a good eye for planning and constructing structural trail features, such as stone retaining walls and steps. He has proven himself to be very knowledgeable in a wide variety of hand tools and machinery.

Sean's personality is calm, thoughtful, and easy-going. His friendly demeanor, work ethic, and technical expertise gain him the respect of his co-workers and supervisors. He approaches people and offers his opinion professionally in a team environment.

Sean has eagerly accepted additional responsibility in leadership roles at OSMP. He has offered to assist with leading volunteer projects. Additionally, he accepted the opportunity to lead a contracted conservation corps crew. His work with the conservation corps crew highlighted his teaching and supervisory skills, and ability lead others to implement quality work projects.

I look forward to seeing how Sean progresses in his professional career. His technical skills, leadership, and personality make him a strong addition to a work team. You are welcome to contact me if you have any questions.

Sincerely,

Greg Seabloom

Trails Supervisor
